

## NRG Energy, Inc. Reports Second Quarter 2021 Results

- Texas legislature takes positive action to improve system wide reliability
- Direct Energy integration and synergies on track
- Announced retirements and strategic review of PJM generation fleet
- Published 11<sup>th</sup> annual sustainability report
- Reaffirming 2021 guidance ranges

HOUSTON, TX - August 5, 2021 - NRG Energy, Inc. (NYSE: NRG) today reported a second quarter 2021 net income of \$1,078 million, or \$4.40 per diluted common share and Adjusted EBITDA for the second quarter of \$656 million.

“Our business delivered strong results during the second quarter, demonstrating the value of our diversified consumer services platform,” said Mauricio Gutierrez, NRG President and Chief Executive Officer. “We remain focused on advancing the strategic priorities outlined during our Investor Day and further strengthening our position as a customer-focused company.”

### Consolidated Financial Results

(\$ in millions)	Three Months Ended		Six Months Ended	
	6/30/2021	6/30/2020	6/30/2021	6/30/2020
Net Income/(Loss)	\$ 1,078	\$ 313	\$ 996	\$ 434
Cash provided by Operating Activities	\$ 1,294	\$ 484	\$ 377	\$ 692
Adjusted EBITDA <sup>a</sup>	\$ 656	\$ 574	\$ 1,223	\$ 922

a. Three and six months ended 6/30/2021 excludes the loss due to Winter Storm Uri of \$82 million and \$1,049 million, respectively

## Segments Results

**Table 1: Net Income/(Loss)**

Segment	Three Months Ended		Six Months Ended	
	6/30/2021	6/30/2020	6/30/2021	6/30/2020
Texas	\$ 792	\$ 350	\$ 367	\$ 512
East	772	142	1,125	162
West/Services/Other <sup>a</sup>	(486)	(179)	(496)	(240)
Net Income	\$ 1,078	\$ 313	\$ 996	\$ 434

a. Includes Corporate segment

Second quarter Net Income was \$1,078 million, \$765 million higher than second quarter 2020, driven by the acquisition of Direct Energy and the resulting mark-to-market on economic hedge positions in 2021 versus 2020 driven by large movements in gas prices and ERCOT heat rates partially offset by \$306 million in impairment losses due to the planned retirement of certain PJM coal assets.

**Table 2: Adjusted EBITDA**

Segment	Three Months Ended		Six Months Ended	
	6/30/2021	6/30/2020	6/30/2021	6/30/2020
Texas	\$ 321	\$ 378	\$ 574	\$ 573
East	290	133	557	219
West/Services/Other <sup>a</sup>	45	63	92	130
Adjusted EBITDA <sup>b</sup>	\$ 656	\$ 574	\$ 1,223	\$ 922

a. Includes Corporate segment

b. Three and six months ended 6/30/2021 excludes the loss due to Winter Storm Uri of \$82 million and \$1,049 million, respectively

### The following discussion of financial results exclude the impact from Winter Storm Uri:

**Texas:** Second quarter Adjusted EBITDA was \$321 million, \$57 million lower than second quarter of 2020. This decrease is driven by less favorable customer load in 2021 as a result of weaker weather and stay-at-home trends as well as increased costs to serve retail load, partially offset by the acquisition of Direct Energy.

**East:** Second quarter Adjusted EBITDA was \$290 million, \$157 million higher than second quarter of 2020. This increase is driven by the acquisition of Direct Energy, favorable weather and early intra-year settlement of demand response capacity obligations.

**West/Services/Other:** Second quarter Adjusted EBITDA was \$45 million, \$18 million lower than second quarter of 2020. This decrease is due to higher fuel costs, lower generation volumes from forced outages, and lower equity earnings following the sale of Agua Caliente in February 2021. These were partially offset by an increase due to the acquisition of Direct Energy.

## Liquidity and Capital Resources

### Table 3: Corporate Liquidity

(\$ in millions)	06/30/21	12/31/20
Cash and Cash Equivalents	\$ 361	\$ 3,905
Restricted Cash	15	6
<b>Total</b>	<b>\$ 376</b>	<b>\$ 3,911</b>
Total Revolving Credit Facility and collective collateral facilities	2,967	3,129
<b>Total Liquidity, excluding collateral received</b>	<b>\$ 3,343</b>	<b>\$ 7,040</b>

As of June 30, 2021, NRG cash was at \$0.4 billion, and \$3.0 billion was available under the Company's credit facilities. Total liquidity was \$3.3 billion. Overall liquidity as of the end of the second quarter 2021 was approximately \$3.7 billion lower than at the end of 2020, driven by the closing of the \$3.6 billion Direct Energy acquisition and the impact of Winter Storm Uri.

### NRG Strategic Developments

#### COVID-19

NRG continues to remain focused on protecting the health and well-being of its employees while supporting its customers and the communities in which it operates and assuring the continuity of its operations. During 2020, summer-critical office employees returned to the workplace, and safety protocols were successfully implemented. The Company has now completed its phased employee return approach within a set of safety protocols to ensure employee well-being. NRG has also implemented changes in the workplace to provide flexibility for employees to support its ability to attract and retain top talent.

#### Texas Legislation and Winter Storm Uri Updates

In the wake of Winter Storm Uri, the Texas legislature passed an omnibus bill, SB3, that directs numerous regulatory reforms, including the adoption of mandatory weatherization standards for both the electric and natural-gas sectors, improved coordination between those sectors, improvements to public communications and transmission-and-distribution utility protocols before and during energy emergencies. Other reforms not embodied in SB3 include an expansion of the PUCT from three to five commissioners and an overhaul of ERCOT governance.

The legislature also signed into law HB4492 and SB1580 that directs securitization of certain costs resulting from extraordinary uplift charges and market-participant defaults within ERCOT as a result of the storm. ERCOT filed applications consistent with HB4492 on July 16, 2021 and the PUCT will have until mid-October to issue orders consistent with the law. We expect that the results of these proceedings will mitigate all or a portion of the financial impacts associated with uplift and default-related costs.

The Company expects Winter Storm Uri's total 2021 loss before income tax to be \$1,060 million driven by resettlement data, ERCOT system wide counterparty defaults, provisions for credits losses, increased uplift charges to load, ancillary charges and other estimates including results from other regions. The Company plans to mitigate the loss by a range of \$360-\$560 million which includes, but is not limited to, customer bad debt mitigation, counterparty default recovery, ERCOT default and uplift regulatory securitization as noted above, and one-time cost savings. The total net impact to cash flow is expected to be \$600 million based on the mid-point of the mitigants of which \$150 million will to be realized in 2022 for bill credits owed to large Commercial and Industrial (C&I) customers.

#### PJM Retirements

On June 17, 2021, NRG announced the retirement of 55% (or 1,600 MW's) of its PJM coal fleet by June 2022 due to the decline in forward PJM capacity prices. The Company also announced it is conducting a strategic review of its remaining PJM generation fleet. On July 30, 2021, PJM identified reliability impacts resulting from the proposed deactivation of Indian River 4. The Company has until August 29, 2021 to notify PJM if it elects not to pursue continued operations.

Based on results of the capacity auction and the announced retirements, the Company recorded \$306 million of impairment losses on the PJM generating assets and goodwill during the quarter ended June 30, 2021.

#### Sustainability Update

NRG released its 2020 Sustainability Report, providing an update on the Company's comprehensive sustainability strategy with a focus on how customer choice and competitive markets have enabled the acceleration of decarbonization across the power sector. NRG demonstrated progress across all of its previously announced sustainability initiatives and recorded a 55% reduction in its carbon footprint from its current 2014 baseline as of December 31, 2020. The report also highlights the Company's commitments to safety, well-being, and community during an unprecedented year, building on more than a decade

of leadership in each of the five pillars of NRG’s comprehensive sustainability framework, which encompasses its business, customers, workplace, operations, and supply chain.

## 2021 Guidance

NRG is reaffirming its guidance range for 2021 with respect to Adjusted EBITDA, Adjusted Cash from Operations and Free Cash Flow before Growth Investments (FCFbG) which excludes the full year impact of Winter Storm Uri. NRG’s FCFbG for the six months ended June 30, 2021 was \$768 million.

**Table 4: 2021 Adjusted EBITDA, Adjusted Cash from Operations, and FCFbG Guidance**

(In millions)	2021 Guidance
Adjusted EBITDA <sup>a</sup>	\$2,400 - \$2,600
Adjusted Cash Flow From Operations	\$1,630 - \$1,830
FCFbG	\$1,440 - \$1,640

a. Non-GAAP financial measure; see Appendix Tables A-4 for GAAP Reconciliation to Net Income that excludes fair value adjustments related to derivatives. The Company is unable to provide guidance for Net Income due to the impact of such fair value adjustments related to derivatives in a given year.

## Capital Allocation Update

On July 20, 2021, NRG declared a quarterly dividend on the Company’s common stock of \$0.325 per share, payable on August 16, 2021 to stockholders of record as of August 2, 2021.

The Company’s deleveraging program will extend into 2023 by reducing debt as of December 31, 2021 to achieve a strong balance sheet of 3x net debt-to-adjusted EBITDA and then by 2023, grow into its target investment grade metrics of 2.5 - 2.75x, primarily through the full realization of Direct Energy’s run-rate earnings. The Company remains committed to maintaining a strong balance sheet and to achieve investment grade credit metrics.

The Company’s common stock dividend and debt reductions are subject to available capital, market conditions, and compliance with associated laws and regulations.

## Earnings Conference Call

On August 5, 2021, NRG will host a conference call at 9:00 a.m. Eastern to discuss these results. Investors, the news media, and others may access the live webcast of the conference call and accompanying presentation materials by logging on to NRG’s website at [www.nrg.com](http://www.nrg.com) and clicking on “Investors” then “Presentations & Webcasts.” The webcast will be archived on the site for those unable to listen in real time.

## About NRG

At NRG, we’re bringing the power of energy to people and organizations by putting customers at the center of everything we do. We generate electricity and provide energy solutions and natural gas to millions of customers through our diverse portfolio of retail brands. A Fortune 500 company, operating in the United States and Canada, NRG delivers innovative solutions while advocating for competitive energy markets and customer choice, working towards a sustainable energy future. More information is available at [www.nrg.com](http://www.nrg.com). Connect with NRG on Facebook, LinkedIn and follow us on Twitter @nrgenergy.

## Forward-Looking Statements

In addition to historical information, the information presented in this presentation includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Exchange Act. These statements involve estimates, expectations, projections, goals, assumptions, known and unknown risks and uncertainties and can typically be identified by terminology such as “may,” “should,” “could,” “objective,” “projection,” “forecast,” “goal,” “guidance,” “outlook,” “expect,” “intend,” “seek,” “plan,” “think,” “anticipate,” “estimate,” “predict,” “target,” “potential” or “continue” or the negative of these terms or other comparable terminology. Such forward-looking statements include, but are not limited to, statements about the Company’s future revenues, income, indebtedness, capital structure, plans, expectations, objectives, projected financial performance and/or business results and other future events, and views of economic and market conditions.

Although NRG believes that its expectations are reasonable, it can give no assurance that these expectations will prove to be correct, and actual results may vary materially. Factors that could cause actual results to differ materially from those contemplated herein include, among others, the potential impact of COVID-19 or any other pandemic on the Company’s operations, financial position, risk exposure and liquidity, general economic conditions, hazards customary in the power industry, weather conditions and extreme weather events, competition in wholesale power and gas markets, the volatility of

energy and fuel prices, failure of customers or counterparties to perform under contracts, changes in the wholesale power and gas markets, changes in government or market regulations, the condition of capital markets generally, our ability to access capital markets, cyberterrorism and inadequate cybersecurity, unanticipated outages at our generation facilities, adverse results in current and future litigation, failure to identify, execute or successfully implement acquisitions, repowerings or asset sales, our ability to implement value enhancing improvements to plant operations and company-wide processes, our ability to achieve our net debt targets our ability to maintain investment grade credit metrics, our ability to proceed with projects under development or the inability to complete the construction of such projects on schedule or within budget, the inability to maintain or create successful partnering relationships, our ability to operate our business efficiently, our ability to retain retail customers, our ability to realize value through our commercial operations strategy, the ability to successfully integrate businesses of acquired companies, including Direct Energy, our ability to realize anticipated benefits of transactions (including expected cost savings and other synergies) or the risk that anticipated benefits may take longer to realize than expected, and our ability to execute our Capital Allocation Plan. Achieving investment grade credit metrics is not an indication of or guarantee that the Company will receive investment grade credit ratings. Debt and share repurchases may be made from time to time subject to market conditions and other factors, including as permitted by United States securities laws. Furthermore, any common stock dividend is subject to available capital and market conditions.

NRG undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law. The adjusted EBITDA and free cash flow guidance are estimates as of August 5, 2021. These estimates are based on assumptions the company believed to be reasonable as of that date. NRG disclaims any current intention to update such guidance, except as required by law. The foregoing review of factors that could cause NRG's actual results to differ materially from those contemplated in the forward-looking statements included in this presentation should be considered in connection with information regarding risks and uncertainties that may affect NRG's future results included in NRG's filings with the Securities and Exchange Commission at [www.sec.gov](http://www.sec.gov).

**Appendix Table A-5: 2021 and 2020 Six Months Ended June 30 Adjusted Cash Flow from Operations Reconciliations**

The following table summarizes the calculation of adjusted cash flow operating activities providing a reconciliation to net cash provided by operating activities:

(\$ in millions)	Six Months Ended	
	June 30, 2021	June 30, 2020
<b>Adjusted EBITDA</b>	<b>\$ 1,223</b>	<b>\$ 922</b>
Winter Storm Uri loss	(1,049)	—
Interest payments	(191)	(172)
Income tax	12	(4)
Collateral / working capital / other	382	(54)
<b>Cash Provided by Operating Activities</b>	<b>\$ 377</b>	<b>\$ 692</b>
Winter Storm Uri:		
Loss	1,049	—
C&I credits and remaining open accounts receivables	(111)	—
Net payments from settlement of acquired derivatives that include financing elements	191	—
Merger and integration costs	66	3
Encina site improvement and GenOn pension	14	3
Proceeds from investment and asset sales	—	12
Adjustment for change in collateral	(696)	(58)
Nuclear decommissioning trust liability	(27)	(37)
<b>Adjusted Cash Flow from Operating Activities</b>	<b>\$ 863</b>	<b>\$ 615</b>
Maintenance Capital Expenditures, net	(94)	(82)
Environmental Capital Expenditures, net	(1)	(1)
<b>Free Cash Flow Before Growth Investments (FCFbG)</b>	<b>\$ 768</b>	<b>\$ 532</b>

## Appendix Table A-6: Second Quarter 2021 Sources and Uses of Liquidity

The following table summarizes the sources and uses of liquidity through second quarter of 2021:

(\$ in millions)	<b>Six months ended June 30, 2021</b>
<b>Sources:</b>	
Cash provided by operating activities <sup>1</sup>	377
Net proceeds of Revolving Credit Facility and Receivables Securitization Facilities	75
Proceeds from asset sales	198
Net receipts from settlement of acquired derivatives that include financing elements	191
<b>Uses:</b>	
Payments for acquisition of businesses, net of cash acquired	(3,521)
Funds deposited by counterparties	(514)
Decrease in Credit Facility	(162)
Growth investments and acquisitions, net <sup>1</sup>	(47)
Maintenance and Environmental CapEx, net	(96)
Net nuclear decommissioning trust liability	(27)
Share repurchases	(9)
Common Stock Dividends	(159)
Other Investing and Financing	(3)
<b>Change in Total Liquidity</b>	<b>(3,697)</b>

<sup>1</sup> Cash provided by operating activities includes GenOn pension, Encina site improvements, and small book acquisitions

## Appendix Table A-7: 2021 Guidance Reconciliation

The following table summarizes the calculation of Adjusted EBITDA providing reconciliation to Net (Loss)/Income, and the calculation of Free Cash Flow before Growth providing reconciliation to Cash from Operations:

(\$ in millions)	<b>2021 Guidance</b>
Net Loss <sup>1</sup>	\$ (340) - (140)
Winter Storm Uri	1,060
Interest expense, net	450
Income tax	(80)
Depreciation, Amortization, Contract Amortization, and ARO Expense <sup>2</sup>	834
Adjustment to reflect NRG share of adjusted EBITDA in unconsolidated affiliates	75
Impairments	306
Other Costs <sup>3</sup>	95
<b>Adjusted EBITDA</b>	<b>2,400 - 2,600</b>
Interest payments, net	(460)
Income tax	(25)
Working capital / other assets and liabilities	(315)
<b>Cash provided by Operating Activities</b>	<b>1,600 - 1,800</b>
Adjustments: Proceeds from investment and asset sales, Collateral, GenOn Pension, Nuclear Decommissioning Trust Liability	30
<b>Adjusted Cash flow from Operations</b>	<b>1,630 - 1,830</b>
Maintenance capital expenditures, net	(180) - (195)
Environmental capital expenditures, net	(5) - (10)
<b>Free Cash Flow before Growth</b>	<b>\$ 1,440 - 1,640</b>

<sup>1</sup> For purposes of guidance fair value adjustments related to derivatives are assumed to be zero

<sup>2</sup> Provisional amounts related to the Direct Energy acquisition are subject to revision until evaluations are completed; for details see Note 4 of NRG 2Q21 10Q

<sup>3</sup> Includes deactivation costs and integration expenses

EBITDA and Adjusted EBITDA are non-GAAP financial measures. These measurements are not recognized in accordance with GAAP and should not be viewed as an alternative to GAAP measures of performance. The presentation of Adjusted EBITDA should not be construed as an inference that NRG's future results will be unaffected by unusual or non-recurring items.

EBITDA represents net income before interest expense (loss on debt extinguishment), income taxes, depreciation and amortization, asset retirement obligation expenses, contract amortization consisting of amortization of power and fuel contracts and amortization of emission allowances. EBITDA is presented because NRG considers it an important supplemental measure of its performance and believes debt-holders frequently use EBITDA to analyze operating performance and debt service capacity. EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our operating results as reported under GAAP. Some of these limitations are:

- EBITDA does not reflect cash expenditures, or future requirements for capital expenditures, or contractual commitments;
- EBITDA does not reflect changes in, or cash requirements for, working capital needs;
- EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on debt or cash income tax payments;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA does not reflect any cash requirements for such replacements; and
- Other companies in this industry may calculate EBITDA differently than NRG does, limiting its usefulness as a comparative measure.

Because of these limitations, EBITDA should not be considered as a measure of discretionary cash available to use to invest in the growth of NRG's business. NRG compensates for these limitations by relying primarily on our GAAP results and using EBITDA and Adjusted EBITDA only supplementally. See the statements of cash flow included in the financial statements that are a part of this news release.

Adjusted EBITDA is presented as a further supplemental measure of operating performance. As NRG defines it, Adjusted EBITDA represents EBITDA excluding impairment losses, gains or losses on sales, dispositions or retirements of assets, any mark-to-market gains or losses from forward position of economic hedges, adjustments to exclude the Adjusted EBITDA related to the non-controlling interest, gains or losses on the repurchase, modification or extinguishment of debt, the impact of restructuring and any extraordinary, unusual or non-recurring items plus adjustments to reflect the Adjusted EBITDA from our unconsolidated investments. The reader is encouraged to evaluate each adjustment and the reasons NRG considers it appropriate for supplemental analysis. As an analytical tool, Adjusted EBITDA is subject to all of the limitations applicable to EBITDA. In addition, in evaluating Adjusted EBITDA, the reader should be aware that in the future NRG may incur expenses similar to the adjustments in this news release.

Management believes Adjusted EBITDA is useful to investors and other users of NRG's financial statements in evaluating its operating performance because it provides an additional tool to compare business performance across companies and across periods and adjusts for items that we do not consider indicative of NRG's future operating performance. This measure is widely used by debt-holders to analyze operating performance and debt service capacity and by equity investors to measure our operating performance without regard to items such as interest expense, taxes, depreciation and amortization, which can vary substantially from company to company depending upon accounting methods and book value of assets, capital structure and the method by which assets were acquired. Management uses Adjusted EBITDA as a measure of operating performance to assist in comparing performance from period to period on a consistent basis and to readily view operating trends, as a measure for planning and forecasting overall expectations, and for evaluating actual results against such expectations, and in communications with NRG's Board of Directors, shareholders, creditors, analysts and investors concerning its financial performance.

Adjusted cash flow from operating activities is a non-GAAP measure NRG provides to show cash from operations with the reclassification of net payments of derivative contracts acquired in business combinations from financing to operating cash flow, as well as the add back of merger, integration, related restructuring costs and changes in the nuclear decommissioning trust liability. The Company provides the reader with this alternative view of operating cash flow because the cash settlement of these derivative contracts materially impact operating revenues and cost of sales, while GAAP requires NRG to treat them as if there was a financing activity associated with the contracts as of the acquisition dates. The Company adds back merger, integration related restructuring costs as they are one time and unique in nature and do not reflect ongoing cash from operations and they are fully disclosed to investors. The company excludes changes in the nuclear decommissioning trust liability as these amounts are offset by changes in the decommissioning fund shown in cash from investing.

Free Cash Flow (before Growth) is adjusted cash flow from operations less maintenance and environmental capital expenditures, net of funding, preferred stock dividends and distributions to non-controlling interests and is used by NRG predominantly as a forecasting tool to estimate cash available for debt reduction and other capital allocation alternatives. The reader is encouraged to evaluate each of these adjustments and the reasons NRG considers them appropriate for supplemental analysis. Because we have mandatory debt service requirements (and other non-discretionary expenditures) investors should not rely on Free Cash Flow before Growth as a measure of cash available for discretionary expenditures.

Free Cash Flow before Growth is utilized by Management in making decisions regarding the allocation of capital. Free Cash Flow before Growth is presented because the Company believes it is a useful tool for assessing the financial performance in the current period. In addition, NRG's peers evaluate cash available for allocation in a similar manner and accordingly, it is a meaningful indicator for investors to benchmark NRG's performance against its peers. Free Cash Flow before Growth is a performance measure and is not intended to represent net income (loss), cash from operations (the most directly comparable U.S. GAAP measure), or liquidity and is not necessarily comparable to similarly titled measures reported by other companies.
